SPECIFICATION FEATURES

- 13.5 & 17m Working Heights
- Up to 7m Working Outreach
- Track-mounted for all-terrain performance
- Powerful Diesel/Petrol engine drive c/w 110v auxiliary for internal use
- 120g & 200kg Safe Working Loads
- Most Versatile boom configuration in class (articulated & sigma/telescopic/flyboom)
- Protected internal service track to basket
- Most compact machine in its class

SAFETY FEATURES

- Outrigger interlocks
- Automatic basket overload sensing c/w alarm & cut out
- Failsafe hydraulic circuit with check valves on all cylinders
- Safe, user-friendly remote drive control as standard
- Full manual override for all functions

Most compact machine in its class!

Remote control as standard!

Heavy-duty rotation and boom structure

TRACCESS135 TRACCESS170

CTE SpA, one of Europe's largest truck-mount manufacturers with CTE UK being the UK's leading supplier of 3.5 tonne truck-mounted access platforms introduces TRACCESS, *track-mounted* access platforms. First introduced in Europe earlier in 2006 TRACCESS 135 (T135) is already proving a success. 13.5m working height and up to 7.0m outreach (120Kg) the T135 offers the most versatile boom configuration available, from the most compact closed dimensions. With articulated, top-telescopic and independent fly-boom (in all modes) and class leading closed dimensions (780x1990x3300mm) the T135 enables access to numerous applications.

TRACCESS 135 & 170 offers *standard* operational and safety features that benefit both operator and owner: powerful diesel & petrol engines c/w mains auxiliary enable internal as well as external use; heavy-duty, solid feeling boom structure, rotation and pivots; 120kg & 200kg SWL selection; basket load sensing; simple remote drive control for safe loading and manoeuvring; protected (from falling branches/debris) internal routing of hydraulic/electric services to basket; simple intuitive control system enabling easy use and simple service and maintenance.

As you would expect from one of Europe's leading manufacturers TRACCESS is a safe, high quality product designed and engineered to provide years of reliable service. TRACCESS is fully CE marked & meets or exceeds the requirements of UK and European safety legislation.

CTE UK, based at Wakefield and Leicester provide full sales and after sales support including national service, spare parts and training for CTE's full truck and track mounted product ranges.

CTE SpA manufactures truck-mounted platforms up to 51m working height.

SPECIFICATIONS

Operating Dimensions:	T135	T170
Maximum Working Height:	13.5m	17.0m
Maximum Platform Height	11.5m	15.0m
Maximum Working Outreach:	7.0m	7.2m
Outrigger Footprint (WxL):	2.70m x 2.70m	2.95m x 2.95m
Rotation (continuous)	320°	330°
Safe Working Load	120 / 200kg	200kg
Basket Dimensions (W x L x H):	780 x 700 x 1100mm optional*	1300 x 700 x 1100mm*
Closed Dimensions		
Length	3750mm	4250mm
Width:	780mm	800mm
Height	1990mm	1990mm
Weight:	1460Kg	1850kg
